INFORMATION CIRCULAR

(As at October 24, 2018, except as indicated)

The Company is providing this Information Circular and a form of proxy in connection with management's solicitation of proxies for use at the annual general and special meeting (the "**Meeting**") of the Company to be held on Wednesday, November 28, 2018 and at any adjournments. Unless the context otherwise requires, when we refer in this Information Circular to the Company, its subsidiaries are also included. The Company will conduct its solicitation by mail and officers and employees of the Company may, without receiving special compensation, also telephone or make other personal contact. The Company will pay the cost of solicitation.

APPOINTMENT OF PROXYHOLDER

The purpose of a proxy is to designate persons who will vote the proxy on a shareholder's behalf in accordance with the instructions given by the shareholder in the proxy. The persons whose names are printed in the enclosed form of proxy are officers or Directors of the Company (the "**Management Proxyholders**").

A shareholder has the right to appoint a person other than a Management Proxyholder, to represent the shareholder at the Meeting by striking out the names of the Management Proxyholders and by inserting the desired person's name in the blank space provided or by executing a proxy in a form similar to the enclosed form. A proxyholder need not be a shareholder.

VOTING BY PROXY

Only registered shareholders or duly appointed proxyholders are permitted to vote at the Meeting. Shares represented by a properly executed proxy will be voted or be withheld from voting on each matter referred to in the Notice of Meeting in accordance with the instructions of the shareholder on any ballot that may be called for and if the shareholder specifies a choice with respect to any matter to be acted upon, the shares will be voted accordingly.

If a shareholder does not specify a choice and the shareholder has appointed one of the Management Proxyholders as proxyholder, the Management Proxyholder will vote in favour of the matters specified in the Notice of Meeting and in favour of all other matters proposed by management at the Meeting.

The enclosed form of proxy also gives discretionary authority to the person named therein as proxyholder with respect to amendments or variations to matters identified in the Notice of the Meeting and with respect to other matters which may properly come before the Meeting. At the date of this Information Circular, management of the Company knows of no such amendments, variations or other matters to come before the Meeting.

COMPLETION AND RETURN OF PROXY

Completed forms of proxy must be deposited at the office of the Company's registrar and transfer agent, **Computershare Trust Company, Proxy Department, 100 University Avenue, 8th Floor, Toronto,**

Ontario, M5J 2Y1, by mail or facsimile, in accordance with the instructions set out in the form of proxy accompanying this Information Circular, not later than forty-eight (48) hours, excluding Saturdays, Sundays and holidays, prior to the time of the Meeting, unless the chairman of the Meeting elects to exercise his discretion to accept proxies received subsequently.

NOTICE-AND-ACCESS

The Company is not sending this Information Circular to registered or beneficial shareholders using "notice-and-access" as defined under NI 54-101 ("**NI 54-101**").

NON-REGISTERED HOLDERS

Only shareholders whose names appear on the records of the Company as the registered holders of shares or duly appointed proxyholders are permitted to vote at the Meeting. Most shareholders of the Company are "non-registered" shareholders because the shares they own are not registered in their names but instead registered in the name of a nominee such as a brokerage firm through which they purchased the shares; bank, trust company, trustee or administrator of self-administered RRSP's, RRIF's, RESP's and similar plans; or clearing agency such as The Canadian Depository for Securities Limited (a "**Nominee**"). If you purchased your shares through a broker, you are likely a non-registered holder.

In accordance with securities regulatory policy, the Company has distributed copies of the Meeting materials, being the Notice of Meeting, this Information Circular and the Proxy, to the Nominees for distribution to non-registered holders.

Nominees are required to forward the Meeting materials to non-registered holders to seek their voting instructions in advance of the Meeting. Shares held by Nominees can only be voted in accordance with the instructions of the non-registered holder. The Nominees often have their own form of proxy, mailing procedures and provide their own return instructions. If you wish to vote by proxy, you should carefully follow the instructions from the Nominee in order that your Shares are voted at the Meeting.

If you, as a non-registered holder, wish to vote at the Meeting in person, you should appoint yourself as proxyholder by writing your name in the space provided on the request for voting instructions or proxy provided by the Nominee and return the form to the Nominee in the envelope provided. Do not complete the voting section of the form as your vote will be taken at the Meeting.

NOBOs

The Company is sending the proxy-related materials for the Meeting directly to "non objecting beneficial owners" ("**NOBOs**"), as defined under NI 54-101. The name and address and information about NOBO holdings of securities have been obtained in accordance with applicable securities regulatory requirements from the Nominees holding on behalf of NOBOs. By choosing to send these materials to NOBOs directly, the Company (and not the Nominees holding on behalf of NOBOs) has assumed responsibility for (i) delivering these materials to NOBOs and (ii) executing the proper voting instructions of NOBOs.

OBOs

The Company does not intend to pay for Nominees to deliver the proxy-related materials and Form 54-101F7 to "objecting beneficial owners ("**OBOs**"), as defined under NI 54-101. As a result, OBOs may not receive the Meeting materials.

REVOCABILITY OF PROXY

Any registered shareholder who has returned a proxy may revoke it at any time before it has been exercised. In addition to revocation in any other manner permitted by law, a registered shareholder, his attorney authorized in writing or, if the registered shareholder is a corporation, a corporation under its corporate seal or by an officer or attorney thereof duly authorized, may revoke a proxy by instrument in writing, including a proxy bearing a later date. The instrument revoking the proxy must be deposited at the registered office of the Company, at any time up to and including the last business day preceding the date of the Meeting, or any adjournment thereof, or with the chairman of the Meeting on the day of the Meeting. **Only registered shareholders have the right to revoke a proxy. Non-registered holders who wish to change their vote must, at least seven days before the Meeting, arrange for their Nominees to revoke the proxy on their behalf.**

VOTING SHARES AND PRINCIPAL HOLDERS THEREOF

The Company is authorized to issue an unlimited number of common shares without par value (the "shares"), of which 34,474,949 shares are issued and outstanding. Persons who are registered shareholders at the close of business on the record date, October 24, 2018, will be entitled to receive notice of and vote at the Meeting and will be entitled to one vote for each share held. The Company has only one class of shares.

To the knowledge of the Directors and executive officers of the Company, no person beneficially owns, controls or directs, directly or indirectly, shares carrying 10% or more of the voting rights attached to all shares of the Company.

ELECTION OF DIRECTORS

The Directors of the Company are elected at each annual general meeting and hold office until the next annual general meeting or until their successors are appointed. In the absence of instructions to the contrary, the enclosed proxy will be voted for the nominees herein listed.

Shareholder approval will be sought to fix the number of directors of the Company at four (4). The Company is required to have an audit committee. Members of this committee are as set out below.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

The main objective of the Company's executive compensation program is to attract, retain, and engage high-quality, high-performance executives who have the experience and ability to successfully execute the Company's strategy and deliver value to our shareholders.

The objectives of the Company's executive compensation program are as follows:

- (i) compensate executives competitively for the leadership, skills, knowledge, and experience necessary to perform their duties;
- (ii) align the actions and economic interests of executives with the interests of shareholders; and
- (iii) encourage retention of executives.

As there is no formal compensation committee, the independent members of the Board annually review and set remuneration of executive officers. The independent directors determined that the executive compensation program should be comprised of the following elements:

- Base Salary – to compensate executives for the leadership, skills, knowledge and experience required to perform their duties; and
- Long-term Incentive Plan – to retain talented executives, reward them for their anticipated contribution to the long-term successful performance of the Company and align them with the interests of shareholders. The plan currently consists only of incentive stock options.

Process for Determining Executive Compensation

To determine compensation payable, the independent directors generally review compensation paid for directors and CEOs (or persons acting in a similar capacity to CEO, such as Presidents) of companies of similar size and stage of development in the oil and gas industry and determines an appropriate compensation reflecting the need to provide incentive and compensation for the time and effort expended by the directors and senior management while taking into account the financial and other resources of the Company. In setting the compensation the independent directors annually review the performance of the CEO (or President) in light of the Company's objectives and consider other factors that may have impacted the success of the Company in achieving its objectives.

Risk Management

The Board has not proceeded to an evaluation of the implications of the risks associated with the Company's compensation policies and practices.

Hedging of Economic Risks in the Company's Securities

The Company has not adopted a policy forbidding directors or officers from purchasing financial instruments that are designed to hedge or offset a decrease in market value of the Company's securities granted as compensation or held, directly or indirectly, by directors or officers. The Company is not, however, aware of any directors or officers having entered into this type of transaction.

The Company has not retained a compensation consultant during or subsequent to the most recently completed financial year.

The Company does not use a specific “benchmark group” to determine executive compensation levels.

Total compensation for executive officers includes base salary and long-term incentive stock options.

Option-based awards

The Company’s stock option plan has been and will be used to provide share purchase options which are granted in consideration of the level of responsibility of the executive as well as his or her impact or contribution to the longer-term operating performance of the Company. In determining the number of options to be granted to the executive officers, the Board takes into account the number of options, if any, previously granted to each executive officer, and the exercise price of any outstanding options to ensure that such grants are in accordance with the policies of the TSX-V, and closely align the interests of the executive officers with the interests of shareholders. The Directors of the Company are also eligible to receive stock option grants under the Company’s stock option plan, and the Company applies the same process for determining such awards to Directors as with NEOs.

The Company adopted a fixed (less than 10%) stock option plan on July 6, 2012.

As there is currently no compensation committee, the independent directors of the Company have the responsibility to administer the compensation policies related to the executive management of the Company, including option-based awards.

Summary Compensation Table

The following table (presented in accordance with National Instrument Form 51-102F6 *Statement of Executive Compensation* which came into force on October 31, 2011 (the "**Form 51-102F6**")) sets forth all annual and long term compensation for services in all capacities to the Company for the three most recently completed financial years of the Company ending on November 30, 2016 (to the extent required by Form 51-102F6) in respect of each of the individuals comprised of each Chief Executive Officer and the Chief Financial Officer who acted in such capacity for all or any portion of the most recently completed financial year, and each of the three most highly compensated executive officers, or the three most highly compensated individuals acting in a similar capacity, (other than the Chief Executive Officer and the Chief Financial Officer), as at November 30, 2017 whose total compensation was, individually, more than \$150,000 for the financial year and any individual who would have satisfied these criteria but for the fact that individual was neither an executive officer of the Company, nor acting in a similar capacity, at the end of the most recently completed financial year (collectively the "**Named Executive Officers**" or "**NEOs**").

CORPORATE GOVERNANCE DISCLOSURE

A summary of the responsibilities and activities and the membership of each of the Committees are set out below.

National Policy 58-201 establishes corporate governance guidelines which apply to all public companies. The Company has reviewed its own corporate governance practices in light of these guidelines. In certain cases, the Company's practices comply with the guidelines, however, the Board considers that some of the guidelines are not suitable for the Company at its current stage of development and therefore these guidelines have not been adopted. National Instrument 58-101 mandates disclosure of corporate governance practices which disclosure is set out below.

Independence of Members of Board

The Company's Board currently consists of four (4) directors, three (3) of whom are independent based upon the tests for independence set forth in National Instrument 52-110 (“**NI 52-110**”), being Jurgen Wolf, James O’Byrne and Stephen Watts. Joe DeVries is CEO and President, and according is not independent.

Management Supervision by Board

The size of the Company is such that all the Company’s operations are conducted by a small management team which is also represented on the Board. The Board considers that management is effectively supervised by the independent directors on an informal basis as the independent directors are actively and regularly involved in reviewing the operations of the Company and have regular and full access to management. The independent directors are, however, able to meet at any time without any members of management including the non-independent directors being present. Further supervision is performed through the audit committee which is composed of a majority of independent directors who meet with the Company's auditors without management being in attendance.

Participation of Directors in Other Reporting Issuers

The participation of the directors in other reporting issuers is described in the table provided under "Election of Directors" in this Information Circular.

Orientation and Continuing Education

While the Company does not have formal orientation and training programs, new Board members are provided with:

1. access to recent, publicly filed documents of the Company, technical reports and the Company's internal financial information; and
2. access to management.

Board members are encouraged to communicate with management, auditors and technical consultants; to keep themselves current with industry trends and developments and changes in legislation with management’s assistance; and to attend related industry seminars. Board members have full access to the Company's records.

Ethical Business Conduct

The Board views good corporate governance as an integral component to the success of the Company and to meet responsibilities to shareholders. The Company’s reputation for integrity is an important asset. The Company has always set high standards of personal and business integrity for its employees, and intends to continue to conduct its business in accordance with those high standards. The Company obeys the law wherever it operates. It is expected that the Company’s business conduct and the personal actions of its employees reflect the spirit and intent of the laws under which the Company operates and its employees live. The Company’s employees are encouraged to act so that others will view the Company and its employees as having the very highest standards of integrity. Ultimately there is no way to assure proper behavior, except through the actions of each employee. No set rules of conduct will apply to every possible situation. Common sense and judgment supported by a deeply ingrained tradition of integrity provides the Company’s foundation.

Nomination of Directors

The Board determines new nominees to the Board, although a formal process has not been adopted. The nominees are generally the result of recruitment efforts by the Board members, including both formal and informal discussions among Board members and the President/CEO. The Board monitors but does not formally assess the performance of individual Board members or committee members or their contributions.

Compensation of Directors and the CEO

There are currently three (3) independent directors, being Jurgen Wolf, James O'Byrne and Stephen Watts. These directors have the responsibility for determining compensation for the directors and senior management.

To determine compensation payable, the independent directors review compensation paid for directors and CEOs (or persons acting in a similar capacity to CEO, such as Presidents) of companies of similar size and stage of development in the oil and gas industry and determines an appropriate compensation reflecting the need to provide incentive and compensation for the time and effort expended by the directors and senior management while taking into account the financial and other resources of the Company. In setting the compensation the independent directors annually review the performance of the CEO (or President) in light of the Company's objectives and consider other factors that may have impacted the success of the Company in achieving its objectives. Further information regarding director compensation appears under "Executive Compensation".

Board Committees

Other than the Audit Committee, as the directors are actively involved in the operations of the Company and the size of the Company's operations does not warrant a larger board of directors, the Board has determined that additional committees are not necessary at this stage of the Company's development.

Assessments

The Board does not consider that formal assessments would be useful at this stage of the Company's development. The Board conducts informal annual assessments of the Board's effectiveness, the individual directors and each of its committees. To assist in its review, the Board conducts informal surveys of its directors.

Expectations of Management

The Board expects management to operate the business of the Company in a manner that enhances shareholder value and is consistent with the highest level of integrity. Management is expected to execute the Company's business plan.
