NEWS RELEASE

Altima Announces Construction of New Chambers Alberta Area Pipeline and Facilities and Updates Chambers, Alberta Project

September 30, 2013 - Altima Resources Ltd. (TSX-V: ARH / FSE: AKC / OTC Pink: ARSLF) announces it has commenced construction of a new 3.78 kilometer pipeline (the "Line") and facility to connect the COPOL HZ 14-15-41-11 W5M well (Refer to News Release September 5, 2013) to the ConocoPhillips Canada compressor facility (the "Facilities") located at 09-04-041-11 W5M. Through a Participation Agreement (the "Agreement") between Acumen Energy Partners Inc. ("Acumen"), and the Company, Acumen has been granted the right to earn a 5% working interest (the "Working Interest") in the Company's 30% working interest in the COPOL ET AL HZ CHAMERS 14-15-41-11 W5M well (the "Well") and the associated Pooled Lands located in the Chambers-Ferrier area of the Western Canada Sedimentary Basin, Alberta (refer to News Release August 26, 2013 for details). As per the Agreement, Acumen and the Company will construct the Line and Facilities, which are anticipated to be completed and the Well placed on production in late October.

Upon completion, the Company and Acumen will receive 100% of the revenue relating to a penalty payout agreement with ConocoPhillips Canada. After which, the payout of the penalty provides that, the Company will retain a 25% working interest in the Well and joint lands (refer to News Release January 24, 2013).

Additionally, the Company is proceeding to survey and License two additional offset wells (the "Wells") to the Altima Chambers 15-35-41-11 W5M well, which was placed on production September 4, 2013. Both offset wells will take advantage of the recently completed pipeline of approximately 6.4 kilometers infrastructure, which tied the 15-35 well to the Baytex header located at 4-4-42-10 W5M (Reference News Release September 3, 2013).

Under a joint venture agreement with Whistler Oil and Gas Pty. Ltd., Whistler has the right to participate in the two offset wells (Reference News Release January 24, 2013). The Company anticipates the drilling of the Wells to commence in Q1, 2014.

ON BEHALF OF THE BOARD

SIGNED: "*Rick Switzer*"
